

## Bull Hotels Group - Preverisk

From Bull Hotels Group we are working in collaboration with Preverisk on a manual of good practices against COVID - 19 for our hotels. We will work on every detail for the security, health&safety of our employees and guests.

This new collaboration will be carried out together with our team of professionals and adapting it to every corner of our hotels, also by training all of our staff and making audits that confirm the good practices.

Together with Preverisk and other hotel chains we become part of the Post Covid19 Hospitality Sector Alliance, in order to make it a safe destination with 100% of the guarantees by specialised companies.
