## Environmental Policy

Mar Senses S.L. is a Majorcan hotel company which acknowledges care for the environment as a fundamental principle. For this reason, we have implemented an Environmental Management System (in line with Standard UNE-EN ISO 14001) which guarantees the protection of the environment at all Mar Hotels establishments. The Mar Hotels Group Environmental Policy is issued directly by the company's senior management, and forms part of the commitments and responsibilities of every area of the company. Accordingly, the Environmental Policy (as well as the strategies and plans that derive from it) applies both to the management of the company itself and to the management of the different establishments owned by the Group. We are committed to:

- 1 Identifying and evaluating the environmental impact of each of our activities and services, with the aim of introducing measures to reduce and prevent pollution, to minimise waste generation and the consumption of natural resources, to promote efficiency and save energy, and to encourage recycling in our establishments.
- 2 Preventing and avoiding significant environmental impact caused by the operation of our establishments, and protecting and respecting the natural environment in those destinations where Mar Senses S.L. has a presence.
- 3 Actively involving all our employees in the implementation of the Environmental Management System through training programmes, awareness raising and continuous improvement at all levels of management.
- 4 Informing our customers about environmental responsibility and setting up initiatives to encourage guests to become involved in the development of these improvements, strengthen their commitment and raise their awareness in order to enrich their experience at our establishments.
- 5 Promoting and disseminating the Mar Senses S.L. Environmental Policy among our suppliers and contractors.
- 6 Periodically reviewing the Environmental Management System with the aim of improving it and adapting the Group's Environmental Policy to the changing circumstances of the organisation.
- 7 Ensuring that we comply with the legislation that applies to our sector.

As evidence of these undertakings, Mar Senses S.L. is making this Environmental Policy available to anyone who may be interested.

Francisca B. Vidal  
Chairman of Mar Senses S.L.
