HISTORIA

YEAR 1998

Oca Hotels foundations, although two establishments were previously operated: Aparthotel Caramés and Hotel Vermar

YEAR 2004

The first hotels outside of Galicia are signed

YEAR 2007

The first resort outside of Spain is signed, Grand Oca Maragogi (Brazil)

The Oca Hotels group **was born in 1998** with the aspiration of becoming a leading organization in the sustainable and responsible management of tourist establishments in the northwest of the peninsula. Although, its origins go back a few years before, since it is not possible to talk about this birth without talking about its founder and president, David Caramés Pombo. Specialist in management and direction of tourism companies, he is the president of the Inversiones Hostelerías de Galicia holding, manager of the OCA Hotels trademark.

Born in Sanxenxo, he began his activity in the hotel sector in his hometown in 1994, with two establishments: Apartamentos Caramés and Hotel Vermar. From then on and as its business volume and the number of hotels grow, the objective of establishing a hotel chain specialized in

the Galicia destination is set, in the first place, and **later expanding its radius of action** to destinations such as Asturias, Catalonia, Castilla y León and Portugal.

The entrepreneurial instinct of David Caramés leads him to the need to diversify the business, hence the emergence of OCA Hotels. The beginning of the hotel group was based on taking advantage of emerging opportunities, initially in Spain, however, based on a significant effort, the company grew to reach a portfolio of 14 hotels. **Its international expansion came in 2007.**

For the Galician chain, people are key. Its president, aware that the needs of clients vary over time, assumes a permanent process of innovation as essential, which allows OCA Hotels to maintain competitiveness over time. For this reason, in 2007 his

search for business outside the borders of the Iberian Peninsula led him to Brazil, where he began the process of buying, building and operating the group's most important unit: Grand OCA Maragogi Beach & Leisure Resort, in the state of Alagoas. A family-friendly five-star hotel, located in front of an impressive line of coral reefs in the Maragogi area, Brazil. A complex made up of 700 beds and whose expansion project, in full development, will take it to more than 830 rooms.

OCA TODAY

At the national level, OCA Hotels is present in Galicia, in its four provinces, with hotels in Compostela, Rías Baixas, A Mariña, Ribeira Sacra, Palas de Rei, Sarria, Ourense and Allariz; and in Asturias with hotels in Gijón and Avilés. At an international level, the line is present in Portugal, with a

hotel in Porto, and in Brazil through a tourist complex.

PRODUCTS AND SERVICES

The management model promoted by OCA Hotels aims to differentiate the group from other hotel companies. The satisfaction of the team and the development of its human capital will lead, in turn, to the satisfaction of the guests, through proposals designed and focused on the search and creation of experiences.

The OCA revolution sets the priority of its workers on people and attention to detail. The objective of the model is to favor the leadership and attitude of the team based on humility, humanity and humor. In this line they work, in turn, to position the brand and thus promote its expansion.

OCA ON THE WAY TO SANTIAGO

A project like OCA Hotels, born in Galicia, could not be oblivious to the importance of the Camino de Santiago. That is why the hotel chain creates a network of accommodation of all kinds, where to stay along the different pilgrimage routes. OCA Hotels is present on various routes on the Camino de Santiago, such as on the French Way (Palas de Rei and Sarria), on the Vía de la Plata (Allariz), on the Camino del Norte (Gijón and Avilés), on the Camino Primitivo (Oviedo). All these establishments have exclusive services designed specifically for the pilgrim: special hours for breakfast, transfer service for people and luggage, garage for bicycles, physiotherapy service and spa.

The company has four establishments in Compostela. But after reaching the desired goal and visiting the Cathedral of Santiago, hundreds of pilgrims wish to continue their route further, to the "end of the world".

That is why on the way to Fistera, OCA is present with a comfortable hotel in the town of Cee.

EXPANSION PLAN

Following what is indicated in our VISION, the company's objective is to become a benchmark chain in the northwest of the peninsula.

This leads us to the search for new business units in the autonomous communities of: Galicia, Asturias, Cantabria, the Basque Country, La Rioja, Castilla-León and Madrid.

At an international level, our growth interest is focused on Portugal, specifically from Lisbon to Porto and obviously to conclude with the projects that are currently being carried out in Maragogi (Brazil).

The expansion will take place in Spain and Portugal, with the Oca and Duerming brands, with hotel establishments, tourist apartments and rural houses. They will be units from one to four stars, from 30 to 180 rooms and within the reference business segments in the company: urban, beach, wellness and the ways to Santiago.

Regarding the operating formulas, we will continue working with units owned, either in whole or in part, with units under lease, under management and under franchise. This last formula, in principle, will be subscribed only under the DuermingBeds brand.
